DATASHEET

Dragon NaturallySpeaking 10 Professional

Work Faster and Smarter

Dragon® NaturallySpeaking® 10 Professional is the ideal solution for busy corporate professionals – such as those in the government, insurance and education industries – to create documents and emails, fill out forms, and streamline workflow tasks – all by speaking.

Users can turn voice into text with up to 99% accuracy more than three times faster than most people type. Dragon NaturallySpeaking 10 Professional offers seamless compatibility with Microsoft Office, and users can dictate, edit and navigate menus in virtually any Windows-based application.

CREATE AND EDIT DOCUMENTS AND SPREADSHEETS

With Dragon NaturallySpeaking 10 Professional users can easily create documents and spreadsheets, or edit existing ones, simply by speaking. Users can quickly add custom words tuned to the lexicon of a specific industry. Plus, Dragon enables easy correction and proofing: with the "play back" feature, users can listen to their dictation while Dragon highlights the corresponding text on the screen for easy proofreading.

NEW Quick Voice Formatting commands allow users to issue a single voice command, such as "Bold *Quick Voice Formatting,*" to make formatting and deleting text faster than ever. In addition, the extensive set of Natural Language Commands mean users don't have to memorize complex instructions. In Microsoft Word, for example, a user can say, "make that bigger," and the font size increases instantly.

NEW Dragon 10 introduces new graphical icons to enhance the DragonBar user interface, making the product even easier to use!

AUTOMATE COMPLEX, REPETITIVE TASKS WITH VOICE COMMANDS

Dragon NaturallySpeaking 10 Professional supports sophisticated macros to automate document-intensive business tasks and dramatically improve productivity. A single command can insert text and graphics into a document, such as an email signature or boilerplate text. In fact, custom voice commands can be created to automate virtually any repetitive task involving multiple keystrokes or mouse clicks.

DRAGON VOICE SHORTCUTS PERFORM TASKS FASTER THAN EVER

NEW With Dragon Voice Shortcuts for Email and Calendar, a user may say, "Send email to Jon Smith and Raphael Sanchez," and Dragon will activate his email program, create a new email and put the appropriate contact names into the "to:" box. Or to schedule a meeting, a user can say, "Schedule meeting with Jon Smith and Raphael Sanchez," and Dragon jumpstarts the process by opening a new calendar entry in Outlook and adding the selected contact(s).

NEW Dragon Voice Shortcuts for Web and Desktop Search make it faster and easier than ever to find and access information. A user says a command containing his desired search words, such as "Search the Web for financial management resources," or "Search maps for Italian restaurants in Burlington, Massachusetts," and Dragon 10 will use the default search engine and Web browser to enter his dictated term(s) in the search field and return the results. A user may also search specific sites including

NUANCE®

ENTERPRISE BENEFITS

Streamline Complex or Repetitive Document-Creation Tasks

Create custom voice commands to automate and streamline repetitive tasks that employees perform dozens of times a day. Dragon NaturallySpeaking 10 Professional allows organizations to set up macros of frequently used signatures, boilerplates, phrases, paragraphs and more so that multi-step processes can be automatically executed with a single voice command – saving even more time.

Employees Can Work Hands-Free

Use Dragon NaturallySpeaking with Nuance-approved Bluetooth headsets. Convenient to use with a Tablet PC system.

Provide Accessibility for Disabled Workers, and Protect Employees from Repetitive Stress Injuries

Dragon NaturallySpeaking 10 Professional can help organizations meet their disability management needs because it's Section 508 certified. Whether employees are permanently disabled or just in temporary rehabilitation, Dragon NaturallySpeaking 10 Professional can keep everyone on the job. Plus, by using voice to control the PC and create documents, users reduce their risk of developing repetitive strain injuries, such as carpal tunnel syndrome.

Boost Employee Productivity

Users can speak more than three times faster than they can type. Dragon NaturallySpeaking 10 installs quickly and requires no special script reading. New on-screen help and tutorials enable employees to become expert users in no time.

Google, Yahoo, eBay, Wikipedia, YouTube and more. Users can search the computer as directly as the Web, by dictating the word(s) to find in documents, emails and Web-browsing history.

DESIGNED FOR ENTERPRISE DEPLOYMENTS

Dragon NaturallySpeaking 10 Professional offers complete enterprise network support, including new security features, a special management guide for IT professionals and support for Citrix deployments. Dragon NaturallySpeaking 10 Professional is ideal for:

- Field reporting (insurance claims, field sales, field service, social workers, inspectors, law enforcement)
- Intelligence reporting and incident reporting (law enforcement)
- Repetitive strain injury (RSI) prevention/accomodation
- Accessibility (physical or language-based learning disabilities such as dyslexia)
- Call center agents
- General office productivity

Organizations with large deployments can centrally manage voice profiles, custom vocabularies and multiple installations. Support for Citrix thin-client environments means that Dragon NaturallySpeaking 10 Professional can be deployed on a Citrix server so dictation can be available from Citrix thin clients throughout the organization.

DICTATE INTO A HANDHELD RECORDER FOR LATER TRANSCRIPTION

Be productive on the go. Users can dictate into any Nuance-certified digital recorder when they're away from the office for automatic transcription when it is synched with a PC.

SYSTEM REQUIREMENTS

- CPU: Intel® Pentium4® or later or AMD Athlon 64 1 GHz or later (SSE2 instruction set required)
- Memory: 512 MB RAM (1 GB RAM for Windows Vista™)
- Free hard disk space: 1 GB (2 GB for localized non-English versions)
- L2 Cache: 512 KB
- Supported Operating Systems: Windows Server 2000; Windows Server 2003; Windows XP SP2 or higher, 32 bit; Windows 2000 SP4 or higher; Windows Vista™ or Windows Vista™ SP1, 32-bit or 64-bit
- DVD-ROM drive (required for installation)
- Microsoft® Internet Explorer 6 or higher (free download available at www.microsoft.com)
- Nuance-approved noise-canceling headset microphone (included), Creative® Labs Sound Blaster® 16 or equivalent sound card supporting 16-bit recording
- For details on Bluetooth microphones, Tablet PCs and other hardware, please visit http://support.nuance.com/compatibility/
- A Web connection is required for activation

During the install process the software checks to make sure your system meets these requirements; if they are not met, the software will not be installed.

* This edition of Dragon does not support dictation directly into Electronic Medical Record (EMR) Systems. For EMR support, please use Dragon Medical Edition.

Recommended Specifications

- CPU: Intel® Pentium4® / 2.4 GHz (1.6 GHz dual core) or equivalent AMD processor (SSE2 instruction set required)
- Memory: 1 GB RAM
- L2 Cache: 1 MB
